Nappy Changing Policy

Aim:

Our OHC aim is for children to be competent in their toileting needs and will always encourage independence.

We appreciate that some children may still require assistance and we will not discriminate against this.

Our procedure should a child not yet have reached this goal, and therefore require a nappy change, is to ensure:

Children are encouraged to change and clean themselves where appropriate

Gloves are used

Change nappy/pants using parent's supplies. Staff will advise when supplies are low

Negative comments are not used

Nappies are disposed of appropriately

Soiled clothes are put into appropriate bags to take home

Staff and child to wash hands thoroughly

Parent's wishes are adhered to

Parents will be advised confidentially of any incidents that may have occurred

Two members of staff will be available to deal with these procedures.
